Scalping Is Fun! 4: Part 4: Trading Is Flow Business (Heikin AShi Scalping)

Synopsis

Scalping Is Fun!Part 4: Trading Is Flow BusinessTrading profits are not equal on the 20 trading days of each month as a regular office job probably would. Experience shows that the results are asymmetrical in occurrence. There are days where it runs like clockwork and days on which trading seems to produce only losses. In this fourth installment of the series "Scalping Is Fun!" The Heikin Ashi Trader looks at the right time to trade. Successful traders know in specifics when not to trade. They focus on the times when market conditions are optimal for them. In order of events, the fun turns by itself, then the success follows suit. In this state of "flow" discipline, this is easy to achieve. Fast scalping promotes the rapid close of loss positions and the quick takeaway from accrued profits, also of equal importance. Index1. Customer Reviews

In this book the author does not talk about strategies but of some other important aspects of trading.

Lots of things you do not realize when you are a beginner. Following his recommendations you can try and avoid some common mistakes. And it can be the difference between profitable and losing money. Just a simple thing like knowing when to scalp makes a big difference to me. In short, this is a very helpful book for every beginning trader. But also for the trader who hasn't become profitable yet. This book can mean a breakthrough.

I've read all parts of this series and I found them really useful...if you're a scalper or you're training to become one, these books are the best! Simple and clear strategy explained in an easy, practical way with many examples.

Good read. Nice practical information concerning scalping forex. But also just a light touch of the subject. But worth it. In the end it's up to the trader.
