## Customer Reviews

This art book for Cloudy's sequel is just as good as the first art book. This is a very well done companion art book to the movie Cloudy With a Chance of Meatballs 2. It's hardcover with 144 pages. The front cover is actually a gatefold that when opened up shows a beautiful landscape painting of the Swallow Falls with the wonderful food creatures. On the back of that cover is a 3-page colour script, essentially the storyboard from start to the ending. The book covers the characters and creature designs, and the production designs for the environment and props. Every page is filled with wonderful art. As most of the characters are featured in the earlier art book, the emphasis here is the commentary on how they have changed since we last saw them. The extra characters are Chester V, Barb, Thinkquanuts, Sentinels of Safety and the other Live Corp

employees. The creature designs are for the foodimals, the complex food-based organisms (or the mutant food-inspired creatures as I would call them) created by the Food Replicator. Those foodimal designs are great, whimsical and creative. There are lots of hilariously cute foodimals with funny names, such as Cheespider, Tacodile, Watermelophant, Shrimpanzees and more. Their designs are almost as wacky as those from The Croods except they are made of food here. Environment art are beautiful too. There are San Francisco city, Live Corp and the evolved Swallow Falls. The colour palette and shapes look inspired by Mary Blair and Maurice Noble. In addition to the art, a scratch-and-sniff stickers booklet is included. The moment you open it, you can smell something sweet. The stickers are of the adorable foodimals.
