Customer Reviews

In these time and age when our economy is not that stable anymore, we need to come up with possible other means to earn extra income. And nowadays it seems that to go on investing and engaging in the stock market is the "in" thing. So books like this one will be of great help. But what is worth noting about this book is that it comes in a bundle set. 2 Manuscripts in one, how practical can

this be? So practical that I didn't think twice in getting it. Anyone will be learning a lot about Options Trading and Day Trading here. The topics were all geared towards making readers understand the process well. So, yes, getting this book set is smart.

This book explains the terminology needed to understand to start trading. You also get some insight techniques to trade. I actually learned so many things about penny stocks and its potentials as an investment medium. This book was a great read that truly opened my eyes. I wouldn't be surprised if I could now triple my money in short time. These books are packed with useful information to help you throughoutâ < the whole process of penny stocks. I highly recommended this book.

By reading this book, we can earn everything we need to know about preparing for and diving into the world of options.such as the basic premise and eements behind options trading what options are, how they work, how they benefit us, and the associated risk.by reading this book, we can discover the characteristics of each, how we can benefit in each market condition. and why familiarity with these matket conditions is essential to our options trading success.very informative book.great guide for Options Trading & Day Trading.

Am interested in developing a great career in the field of Forex and penny trading, and am using a number of resources to gather more information. this book has some good information to prepare the trader make the profits and manage the venture in a more professional way.

Penny stocks are more appropriate for investors with high patience for risk. Generally, penny stocks have a higher level of volatility, resulting in a higher potential reward and a higher level of risk.

Considering the elevated risk levels associated with investing in penny stocks, investors should take specific precautions. Although penny stocks can have explosive moves, it is essential to have realistic expectations because gains in the stock market take months and years to materialize. Eric Alton with these engaging guides will teach you what an option and a day trader are, with additional useful terms that you need to understand, about common mistakes that newcomers may make in the market, you will learn about options strategies, types and forms of traders, how to create a fund and develop your skills. I unquestionably enjoyed reading it and I recommend it.

The book has important substance and data about picking the right stocks. There is section about rudiments of penny stocks, penny stocks which one ought to search for, value forecast, penny stock

examination strategies, rules and regulations about penny stocks and a portion of the myths with respect to penny stocks. In this book you will take in the essentials and how to begin in penny stocks; the directions and rules are straightforward so regardless of the possibility that you're a novice in this sort of field that won't be an issue. James made a brilliant showing on making an exceptionally educational book like this and I laud him for that.

This is a really comprehensive guide to penny stocks! I learned so much from this book, I feel confident that my investment decisions will be successful and rewarding. This gives you a guide to follow in picking penny stocks, it can even help you in organizing the mind set you need in studying stocks. I love how the author presented the penny stocks to be a more interesting and easy-to-understand topic. Highly recommended!

It is a well-written and perfect guide book that will help you to making a profit in the stock market. On the Book 1; you will gather and gain information as well as knowledge that you can used to earn cash for a long period of time, you will also learn the Option Trading Strategies, How to read the Options Ticker, The Risks and Rewards, and a lot more! While on the Book 2; it contains steps, techniques and strategies on how to increase your winning odds and avoid unnecessary losses. Through this book, you'll be able to learn effective strategies for Day Trading, Day Trading Time Zones, and so much more!
