## Synopsis

The election of Barack Obama has brought worldwide attention not only to what his policies will be, but to what kind of First Lady Michelle Obama will be. Throughout the long campaign season, Michelle Robinson Obama garnered a good amount of attention, kudos and criticism about her words, actions, even her appearance, but few people know what kind of role she will play once she settles into the White House. One clue is to examine her words and statements of the past, and the proposed book Michelle Obama In Her Own Words will show readers who are eager to learn more about America's new history-making First Lady. I had no idea that this book was composed of a bunch of quotes. This isn't the kind of book that I was looking for. I thought that Michelle wrote this book herself! Maybe it was my lack of reading what it was about. Useless book to me.

The content of this book is quotations from Michelle Obama's public speeches and interviews. It's short and easy to read, while we learn more about the First Lady's political philosophy and beliefs. She is a strong woman who believes in the power of each person to make a difference in the community, nation and world.

This is a book I read through on a first setting. Since then, I have kept it handy. I find myself picking it up quite frequently, whenever the urge overcomes me to assure myself that not all people in my native country, or elsewhere in the world, are selfish, willfully ignorant, enraged and hate-filled. First Lady Michelle Obama's own words in print serve to remind me that no matter what the circumstance or accident of birth that brought me here, to the United States of America, at this time and to this place, I am a most fortunate individual. The First Lady's words reveal what she is, exactly as she is, which is human. We have that in common, she and I. There is no pretense, no made-up-for-the-public image about this woman. She is the real thing: joyful, funny, wise, extraordinary! Michelle Obama in her Own Words is a book I will buy over and over again to give as gifts, not only for the girls and women I love, but also for the boys and men I care deeply about.

Not difficult to get through at all but it really lets you hear how she feels about various issues. I really saw her in a different light.

CommunityThis book shows a woman's genuine love and care for well-being of her fellow mankind.It shows compassion and guidance with understanding.

The book contains quotes of our first lady. I expected something different but after getting over my surprise it was ok. The author just collected quotes on different topics. And this is how the book is organized: Headline and then quotes on a topic, next headline and so on..Some of the quotes are funny, some are touching, some are smart, and some are plain boring like nothing else could be found to be printed. It is ok to get an impression but don't expect a biography!

Michelle Obama is a real woman. She is honest in her remarks, passionate about her family and outspoken in her beliefs. This book is a collection of quotes by Michelle Obama arranged by subject. Readers are able to understand Michelle's views on a variety of topics: balancing career and family; her childhood; fashion sense; Barack's safety; the 'elitist' tag; role of the 1st lady and her critics. Rogak has taken the time to comb through numerous speeches, newspapers, articles and magazines to compile this unique collection. Michelle Obama's words will encourage motivate and inspire women. They will also give you a glimpse into how Michelle thinks. Michelle is a great role model and this book will definitely inspire. Deltareviewer Reviewing for Real Page Turners
