# Make Money With Binary Options: The Calends Strategy (The Binary Options Speculator) (Volume 2)

## Synopsis

### A SIMPLE, YET AMAZINGLY EFFECTIVE SYSTEM TO MAKE MONEY WITH BINARY OPTIONS

If you're looking to trade binary options then this book is for you. It presents an easy-to-follow, complete system to successfully trade with binary options. This system is based on a simple yet extremely powerful idea: what worked in the past is more likely than not to work again in the future. The system trades only once a month and always uses the same type of binary option. Setting up a trade takes a couple of minutes at most: You just look up in a table if the asset you have chosen is expected to go above or fall below a certain value and how much you should bet. You then log into your binary options broker's platform and enter those parameters. No further action is needed until the end of the month. The author of *Make Money with Binary Options: The Calends Strategy* has over 25 years of trading experience and has taught courses in finance, accounting and real estate. His results-oriented books and courses blend experience with a sound theoretical foundation to deliver practical, easy-to-follow knowledge that brings immediate benefits to readers and students. *Make Money with Binary Options: The Calends Strategy* describes a complete "plug-and-play" trading system, meaning one that comprises both a trading strategy and a money management system. The book starts by describing how the trading strategy is built. It also explains the concept of expectancy and how to use it to gauge if a strategy is worth trading and to rank strategies. The rationale of money management comes next, followed by a detailed explanation of how to place the monthly trade. **GET THIS BOOK RIGHT NOW: START TRADING CONFIDENTLY AND ACHIEVING SOLID RETURNS!**

## Customer Reviews

This book reveals a simple yet effective and complete "plug-and-play" system to trade the world's stock markets indices using binary options. I have learnt about how winning works and when we can call it "the winning" even when you sense you may be losing again, you cannot be sure of it. The book contains valuable information about the system trades and binary options. For every trade it specifies the exact parameters, success rate and a recommended percentage of trading capital to stake. Countries included: Australia, France, Germany, Hong Kong, India, Italy, Japan, Netherlands, Switzerland, United Kingdom and United States. Also included is the Euro 50 index. The author, José Manuel Moreira Batista teaches readers about the money management system and how it is calculated. The book is filled with valuable information along with screenshots of various options about using binary options. I recommend this book to all readers who are interested in finances and investment.
