ISBN-13: 978-0071785136

Product Dimensions: 8.7 x 2.4 x 11.1 inches

Shipping Weight: 8.6 pounds

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (7 customer reviews)

Best Sellers Rank: #334,877 in Books (See Top 100 in Books) #27 in [Books > Textbooks > Medicine & Health Sciences > Nursing > Clinical > Anesthesia](#) #39 in [Books > Medical Books > Nursing > Anesthesia](#) #66 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Pain Medicine](#)

Customer Reviews

I have to say, I bought this text as a reference, to have it available for review & for when I need it, The price was steep, but I thought it might come in handy. Yesterday I was notified by pharmacy

that there is a shortage of neostigmine. I had to choose between edrophonium & pyridostigmine. I was not very familiar with either, so I thought I'd read up on it with the Longnecker tome. WRONG!! I searched and searched, but was not able to find anything substantial about reversal agents. Even Stoelting's "Basics of Anesthesia" has a few pages on this topic, but not Longnecker!

Very well written. Much more complete than "Clinical Anesthesiology" by Morgan, but equally easy to read and assimilate. This is my desktop Anesthesia book, the one I use for deeper studies. Strongly recommend.

This is not a DVD, as informed. This is a book that comes with a DVD! Good book, easy to read.

Complete and easy to read compared to other basic clinical anesthesiology texts.

Extensive and actualized revision of the speciality

Very Good book. Up To date, easy reading and compact. I just wish I had more free time To read it all.

Estava estudando nosso programa de ME3, lendo o capítulo de cirurgia torácica de outro livro (barash). Já desanimado com a extensão do capítulo, fui ver a bibliografia do TSA, e lá estava "Anesthesiology 1ed" de 2007. Pesquisei na e descobri que em maio de 2012 haviam lançado a 2ed. Li algumas partes no site e resolvi arriscar... Já li bastante do barash, e este era o livro que estava usando para estudar, porque achava completo e relativamente curto. Li um pouco do Morgan, mas achei incompleto e a tradução tinha muitos erros. O Miller li 2 capítulos, extremamente completo e longo, pouco útil para estudar para provas. O Anesthesiology 2ed substituiu o Barash no meu dia a dia. É o melhor livro que eu já li, sem sombra de dúvidas! Já completei 5 capítulos, não tenho queixa de nenhum. Muito bem organizado. Compre e não vai se arrepender. Bons estudos!
