Insurance Claim Secrets REVEALED!

Synopsis

This is the best book you can own on the strategies YOU need to use to get the insurance companies to pay you ALL the money you are entitled to collect when you have a claim. Wouldn't you agree that nothing else matters about insurance other than getting the claim PAID IN FULL? In this book, you will learn: " The games and scams insurance companies use to cut costs and keep claim payments at the lowest amounts possible " When it's the right time to use an attorney " How you can take control of your claim, and not allow the insurance company or claims adjuster to control YOU " What a Public Adjuster is, and the valuable help you can get from Public Adjusters " That the insurance adjuster is NOT there to help you " and much more You will learn: " What to do when you have a car accident...BEFORE you open the car door or talk to anyone " How much MORE money I collected (thousands!) in the two little claims I had while writing this book " About Diminished Value on automobiles, and how it can cost you THOUSANDS if you don't fight " About cheap aftermarket auto parts that insurance companies LOVE, but leave you less safe " And so much more Ask yourself these questions: Do you carry a spare tire and jumper cables in the trunk of your car? Do you have a toolbox at home? Have you ever bought a book or read an article that showed you how to fix something? Do you own a first aid kit? Do you have a fire extinguisher or smoke alarms in your home? Why would you do ANY of those things? Answer: So you are prepared BEFORE something bad happens. READ THIS BOOK BEFORE SOMETHING BAD HAPPENS TO YOU!!! READ THIS BOOK AFTER SOMETHING BAD HAPPENS TO YOU, TO KEEP IT FROM GETTING WORSE! This book should be on the shelf in EVERY HOME. This book should be in EVERY automobile glove box.

Customer Reviews

I happen to know this author personally. He made the ultimate sacrifice in writing this book, because it cost him his high paying insurance industry job. If only we had more people like him, who are willing to risk everything to serve the public interest. Excellent information, read it now, and be prepared in case you ever have to face a major property claim. It's written in a very conversational style that is easy to understand and entertaining as well.

I recently had a car damaged in a storm and read this book to help me know what my options were in dealing with my insurance company. Don't think that just by paying your premiums on time they are just going to hand you cash when their claim rep totals your car out. I had to fight for mine and was only 80% satisfied at the outcome..Insurance seems like a scam to me because it's not cut and dried, even though I had full coverage on my car, I don't think I was treated as fairly as I could have been.While it wasn't pretty this book gave me options that the claim rep didn't and had I not read this book I would have just taken whatthey offered. On any claim you need to check with you state about what rules they have for insurers.I would recommend anyone dealing with an insurance claim read this book.

This book is a must for every homeowner to know. 90% of the information in this book is related toward real property as a home owner. I bought this book because I was in an auto accident and I still learned a lot about just how corrupt the insurance industry really is.I employed some of these terms in my car accidents and the claims adjuster lost control over my claim. However, they still would not pay for replacement cost because their ACV figures are extremely biased due to having a vested interest in the policy.This book reveals needed information if you ever have a claim against any insurance company. Considering the cost of this book and it is written in language anyone can understand, it is a valuable asset to have available.

Get out your highlighter! This was an exceptional book which guided me through the nightmare of a commercial fire loss, saving me thousands of dollars. The information would also be a must-read for personal loss as well. Do yourself a favor and buy this book before you suffer a loss.

Written in a very conversational way, this is a fast read, filled with basic information. While the author seems like a nice enough chap, I was a little surprised that his editors didn't pick up on some pretty sexist language and proud pro-gun opinions -- not expected or necessary in a book about insurance claims in 2016. That said, take the polemic peices out and you've got a nice little book that'll teach you quickly about insurance claims. If it weren't for the unnecessary stuff this would have been a 5.

Of course, the average person won't feel compelled to put this on their bookshelf (ourselves included) until they have a claim situation. The smart ones would consider it beforehand, word to the wise. Should you have a claim, this book helps illustrate the questions you need to be asking your agent, adjuster and yourself -- the answers and the book would help get you going with a plan forward. Do you still need a lawyer? Do you still need a public adjuster? Maybe, but at least you might feel clearer about the decision you ultimately make in this regard. You'll definitely get your \$30 back, with interest, taking Mssr Longcore's advice. Would actually rate it 4.5 stars, but would want more examples in the book, if anything, to rate it 5 stars... Also, we have one actual complaint - there are multiple references in the book to a website maintained by the author - and ALL THE LINKS ARE DEAD. hUh?

I am in the process of a water damage claim for my home and thought this book would be a great resource. Well, not so much. I have spent some time digging around the internet and found most of what is referenced in the book is already out there on the web. There are some links to other sites that are interesting but not useful for more information.

I'm in the industry and I know what this books covers is good information. Everyone with a large claim should know this stuff.
