# Learn Spanish Step By Step: Spanish Language Practical Guide For Beginners (Learn Spanish, Learn German, Learn French, Learn Italian)

## Synopsis

This book, Learn Spanish Step by Step: Spanish Language Practical Guide for Beginners is written for the person that wants to comprehensively study Spanish to become fluent in Spanish. What will you find in this book? In this book you will find lessons in grammar and vocabulary, also on culture of Spanish speaking countries. Given its communicative approach, we want to provide you the Spanish learning as a living experience instead of present it as the typical Spanish learning books do it, with a boring description of grammatical rules. Here you will find:

1. Teaching games to practice your Spanish.
2. Easy tips on pronunciation.
3. A voice recording to support the learning process.
4. Exercises in each chapter to make learning a living experience.
5. A modern approach that allows you to learn Spanish to use it, not to save it as grammatical rules.
6. Grammar lessons designed to support the communicative learning.
7. Situations that allow contextualize the Spanish learning.
8. An extensive vocabulary at the end of the book.
9. A useful guide on the major complications when pronouncing.
10. Alphabet Soups, and much more

## Customer Reviews

I had so much fun learning the Spanish language with this book. Another one from Lucas Jagger. I am starting to be his fan. Same with the Italian book, this has a good quality as well. I like the flow of information on every chapters. It is really informative from the overview of this Language up to the discussion of the details of the letters, words and how to use them in sentences. There are many examples given which you will really have fun trying and practicing. I have mentioned this before with the Learning Italian Book that such reference is really an essential to any travelers. It gives you an advantage to be able to speak basic sentences/phrases when you are in a foreign place. This book has really been so helpful for me to understand and appreciate better the Spanish language. Although you might find some minor format error on some of the pages but over all, this is really a good one to have. Highly recommendable, just like other Lucas Jagger books.

This is a decent guide for the individuals who are supreme learners, similar to me. This book contains brilliant approaches to learn Spanish effortlessly. Lessons are very much arranged, and you will effortlessly and bit by bit take in the elocution and punctuation. As an apprentice, I concede that for me, taking in Spanish from this book is extremely fun and intriguing. Suggestions for the individuals who look for a decent guide for taking in the Spanish dialect.

Spanish is an interesting language to learn. I used to watch Dora the explorer and I know the abre, ono, dos, tres. As I saw this book, I come to thinking that I can try learning it on my own. Starting from the alphabet on which is the basic and then to pronunciation. Then to the common things that we see just like in primary years. Teach what are the body parts and then to the things in living room. I can say that this is so helpful. Would recommend this book.

I absolutely love this book it is fun and educational. I have learned from this book that the best way to learn a new language is to study its alphabet. I was never aware of this until i purchased this book! Fortunately, Spanish uses a roman alphabet so it should not take long for a English speaker to learn to write and recite the Spanish alphabet! Another piece of valuable information i learned from this book is along with grammar and good vocabulary, accurate pronunciation is one of the essentials in communicating effectively efficiently in Spanish. I highly recommend you buy this book as it will help you better your life in so many ways. Thank you and god bless.

An amazing book on building your ability to speak Spanish. This book is really awesome and

everything you will learn in this book is very relevant. It is easy to understand than some books and it explains the concepts well. The instruction are easy to understand and exercises are very helpful. This is exactly the book i was looking for and the step by step guide really helps me in learning Spanish quickly. I definitely recommend it especially to all beginners.

Learning Spanish is one of my list, that is because, most of the people I know, are speaking this language, and I also want to learn so that I can go and visit places where Spanish is their first language. After reading this book, I learned basic greetings, the commonly used terms, as well as how to use some words when asking. I have taken down notes, and I loved what I learned here. Great read for me. Como esta?

This is a very good guide for those who are absolute beginners, like me. This book contains excellent ways to learn Spanish easily. Lessons are well planned, and you will easily and gradually learn the pronunciation and grammar. As a beginner, I admit that for me, learning Spanish from this book is very fun and interesting. Recommendations for those who seek a good guide for learning the Spanish language.

This book has been an extraordinary educator and has additionally included taking in the beginning off from fundamental words and transitioning to some way or another confused words, expressions and sentences. This book is particularly reasonable for tenderfoots since the writer has begun from the very nuts and bolts of dialect. What's more, the best part is simple and easy to get it.
