Customer Reviews

Badly organized, repetitive, filled with inaccuracies (Rock Hudson pretended to be gay so that women would stop coming on to him?), this is laughable trash. Don't waste your time or money.

This is the worst piece I have ever purchased. It was unreadable on my Kindle due to poor layout and formatting. The content was 3rd grade drivel that was just a rambling rehash. Shame on for not vetting this one!

Celebrity scandal isn't normally my thing but I wanted a mindless read. Achievement unlocked with this rubbish. Even if celebrity scandal is your thing this book is worthless. I suspect the target market is senior citizens residing in Palm Springs who once sat at a table in a supper club a mere 20 feet away from Larry Storch from F-Troop. I really can't complain, however. I did get a chance to read a chapter prior to buying. The title hints at the fact the book will likely not be of the same quality say Hamlet would be. I guess the best part of buying this book was the fact that I was able to play amateur mythbuster. You know that adage you can't judge a book by its cover? Not so. The woman on the bed isn't posing, she is farting. Right in your face. I gave the book two stars out of my own sense of pride. Veni. Vidi. Desumo. I came, I saw, I purchased. In my defense... No, nothing. If you are wondering why this review lacks any substantial references it is because there is nothing of substance to reference.

I am so disappointed that I purchased this book! I believe the information would have been more entertaining if I was actually able to read it. It is formatted incorrectly with missing sentences and paragraphs, mislabeled photographs, and changing fonts. It was so difficult to read because of all of the mistakes that I am still unsure if what I read was correct. Don't waste your money on this one, friends!

I only read the the sample and what I read was not worth ordering the book. I would say save the money for a more interesting book.

Gossip. Hearsay and very little real documentation. Quick read though the author does not seem to know about spellchecker.

This book is absolute trash. The inaccuracies and grammatical errors are overwhelming. It's as if the author opted to publish raw notes versus a completed product. Do not waste either your time or money.

with a horrible layout for the Kindle Fire, glad it was only a rental or I would certainly have returned it for a full refund!!!
