Customer Reviews

This guide is great! I have learned a ton about HUD properties. My wife and I have applied for an

FHA 203(k). We found two HUD locations in our city that are going for extremely low costs. Matt Andrews has a brilliant plan for acquiring these properties. I'm very happy to have such a guide for such a great price. I feel more comfortable than ever in dealing with the business and strategy aspects of this endeavor. I feel confident in pulling the trigger and acquiring a home at an incredible price!

Great overview of the government owned property strategy. I would highly recommend this book for beginners just getting started and for veterans looking to add alternate property sources to their acquisition strategy. This strategy is a great opportunity in 2015 and beyond.

Short, sweet and to the point. This book does an amazing job at blueprinting one of the best acquisition strategies to implement in any real estate market. If you plan on purchasing or flipping, government-owned properties, you're definitely going to want to read this book 1st. I wish this book was around when I started.

This guide is an extremely helpful resource that helped me understand what was needed for me to get started making profits from government owned properties. Written in clear language and gives step by step instructions on what you need to know, what you need to do and what you need to have. Thanks for this great guide to prosperity.

Very good if you are into buying property cheap and resell after making some repairs. A friend buys a lot of properties and rents them out to military folks. He lost all his properties in Hurricane Katrina and made a fortune from the insurance companies after they were not recoverable. Good thing he had both Wind and flood insurance on all of them. He will be retiring from the government at 56 and has more pretty he rents out. He also has over a million dollars in his 401k following the advice of the experts.

Matt's done it again! This is a niche that most house flippers totally ignore. I HIGHLY recommend you check it out. \$.99 could easily lead to thousands of dollars in profit... fast.

This book does an excellent job at outlining one of the best acquisition strategies to implement in the current real estate market. If you are going to purchase, and flip, government-owned properties, I highly recommend reading this book to guide you through the process.

Just bought the HUD book. If it's anything like the other Matt Andrews books, I will soon have more money in my pocket!
