Customer Reviews

Spectacular photography! Looks like the authors had a wonderful time travelling through some incredible places in Utah. Gorgeous, stunning pictures. I felt the descriptions were a bit on the amateurish side, more like what you would find in a family album, but maybe the authors intended it that way.....otherwise, absolutely fabulous pictures

Absolutely loved your photographs! I spent three weeks hiking Utah's National parks in 2004! Arches Natl Park is my favorite! Love Delicate Arch! Your photographs bring back wonderful memories!! Thank you for sharing I hope you sell a lot of them!!!!

I got this book as we're planning a trip in the area. I've gotten some great info on places we won't want to miss, all via photos. The pictures are so lovely and they have peaked our interest in certain places we're now not going to miss.

Beautiful and inspiring pictures decorate this book. They make the reader anxious to see all of the scenery in person. I loved the photos. Yet for some odd reason each photo appears four times. Is this intentional?

I just got through looking at a special place in our planet through the eyes and lenses of John Glass. WOW !! John has a way of putting you there! I don't get that feeling with other photos. When I look at John's pictures, I feel like I'm right there, on top of that hill looking down upon the lake, the mountain top and deep within the canyons. Through his skill and love of the outdoors, John just puts me right where he is. I feel like I am physically there. Quite an AMAZING feeling. He transcends me into the landscape of Mother Nature. I can feel his love for nature and feel like I'm on the road with him. His skill with his camera brings in such detail--every photo is like 3D. Its amazing to me how he's able to get such depth and detail from each photograph. Each photo has such high definition. What skill and precision. Also, I just love how he's able to capture such magic in his shots. Like, the sun spreading its wings through a bluff and you see a star. Now that's got to take a lot of skill and patience and incredible timing to get some of the special shots to give the viewer such magical

photos to enjoy. THANKS, John. You have given me a whole new outlook on the physical universe and such a beautiful, aesthetic look at Utah which I probably would never be able to capture myself. What a beautiful gift you have and thanks for sharing. LOVED IT !!

Great photo book! I really enjoyed seeing the sights that I saw last as a kid visiting these parks with my parents. Makes me want to go back so bad! Lovely views that are sweeping and really communicate the spaces of Utah.

Beautiful landscape pictures taken with artistry. One of my favorite pictures was the rain squall! Its a rare glimpse of a patch of rain visualized from a distance. Absolutely breathtaking. Thanks John!

Wow, what gorgeous photos!! When I was a child, my dad took us to some of these places on summer vacations and it brought back many memories. John is a talented photographer and I love that you can click on the Google link to get the actual location of each photo. Viewing these photos peaked my curiosity as to how some of these incredible formations came to be. This would be great for using as a tool for teaching geography!Trissie Badger
