# The Comedy Hypnosis Bible

## Synopsis

The Comedy Hypnosis Bible is the EVERYTHING How-to Book for the Comedy Hypnosis business. It's the official course manual for the Comedy Hypnosis Certification Course with the American School of Hypnosis Centers and is now being made available to the public. You'll learn:

- How to create a spectacular show
- How to choose successful subjects
- Instant & rapid inductions
- Various depth levels of skits
- Behind the scenes operations
- Safety & legal Issues
- Venues getting agents / bookings
- How to advertise in the shows
- Tons of creative and hilarious skits and so much more

Best of all, you'll learn all this by an author who was a professional entertainer and actually performed comedy hypnosis show in dozens of venues for over two decades. Rene , aka Ozzie Ozner (stage name) will show you what really works and what to avoid to have the best experience possible. People are coming to see a comedy hypnosis show to be entertained and not to see a group of volunteers just sitting on stage motionless for 20 minutes until you get them deep enough for your skits. I was known as the World's Fastest Hypnotist because I told the folks booking me that I'd get everyone on stage in hypnosis and entertaining the audience in 4 minutes or less or the show was free. How's that for a Guarantee! By the way, I was always paid. Doing a twenty minute induction may be fine when you're first starting out but if you want to be really successful you must be able to entertain your audience the moment your volunteers hit the stage. If you'd like to be a Comedy Hypnotist or if you're already in the field and would like to expand your knowledge and repertoire then this is the Bible is for you. ## Customer Reviews

I'm a certified clinical hypnotherapist and wanted to learn comedy hypnosis, this book is great and has a prominent place in my library

I was able to use this book to do my first (unpaid) comedy hypnosis show. I actually wanted to give it 3.5 stars rather than 4 for reasons which I'll explain. It contains enough information for you to learn how to create a stage show around hypnosis, although my recollection of the actual hypnosis instruction is fuzzy. It contains skits, hypnotic "convincers," and even some hilarious things you can do to make your audience laugh even without hypnosis. So why don't I think it's a five-star book? It has problems with organization and clarity, and I sometimes had trouble finding my place among the sometimes ambiguous chapter titles. There is some awkward repetition of information, probably unintentional, which caused me some confusion as I tried to decide which version of the information/instructions was most reliable. I feel that the book deserves more editing. Also, the explanation of the Arons Depth Scale could have been worded better; it was difficult to understand. That being said, this is still a great book (especially for the price!) that will get you off the ground. It has some information on doing stage hypnosis as a business, but I've found more comprehensive information elsewhere. Also, I already had some experience hypnotizing actual subjects before I got this book. If you don't have that skill yet, some cross-referencing and a good deal of practice will be helpful. I can recommend this book to hobbyists or anyone who can't afford more comprehensive training. It has the bulk of the information you need to do an entertaining hypnosis show. Just be prepared to spend some extra time hunting for specific info or making sure you understand one thing or another.
