Customer Reviews

This book is a wonderful reference tool in explaining entry-level jobs. I believe it meets all expectations and it fulfills the title's promise. However, there needs to be more done in the job search. This book doesn't say anything about resumes, cover letters, or networking. All of which is vital to the job hunt. A wonderful addition to this book would be the popular job-hunting book, "How to find your dream job and make it a reality: solutions for a rewarding and meaningful career" by Jason McClure. I think these two resources together makes for a wonderful career/job-hunting library.
