Egypt: An Extraterrestrial And Time Traveler Experiment

Synopsis

This book is a sequel to Dr. Goldberg's Time Travelers from Our Future, and depicts the significance of Hermes, the very first time traveler, on both Egypt's development and our planet's heritage. According to Dr. Goldberg's case histories and research, Egypt developed from four sources: Lemuria(Mu), Atlantis, ETs and time travelers. One of the most dramatic chapters deals with Hermes' role as Moses' advisor and rewrites the history of the Exodus by demonstrating that the original Jewish people were Egyptians! Archeological and historical evidence are presented to support this argument. Several self-hypnosis exercises are presented to guide the reader into their own past lives, out-of-body travel and training them to contact these time travelers.

Book Information

Paperback: 176 pages

Publisher: Bruce Goldberg; 1st edition (July 15, 2007)

Language: English

ISBN-10: 1579680178

ISBN-13: 978-1579680176

Customer Reviews

This is an excellent book, in that it anchors and provides a foundation for many similar books about 2012, and the cycle we find ourselves in. Goldberg stays on target throughout the book, with no silly filler material. I was fascinated throughout, and I'm glad he had the courage to write on many controversial subjects. You go Bruce boy!

Quite unique on this path. A book that invites you to consider alternative history, and this invitation is mind-twisting. Written with intelligence and systematology. A dentist who became an author on the path of occult and alternative realities. I loved the book, for there are so many theories we can explore and learn from. Indeed, an outstanding work. I thought Maximilien de Lafayette, L. Gardner and Dr. Jacobs are the only ones who mix academia, science and culture in their astonishing books, but now I see Dr. Goldberg joining this elite club. Read his book. It is a treasure.

This book delves into super ancient history. I wasn't expecting this much research or clarity from the pre-historical times of Lemuria and Atlantis forward. I've read information I've never seen anywhere else. So, expect a scholarly work. Highly entertaining if you like this type of material. I really enjoyed it. I hope this book and all of Dr. Goldberg's work will be available via Kindle soon.

Even if you believe in this book or not, it's amazing and really opens your mind to new ideas and possibilities.

I heard that this book was very good and bought it. I haven't had time to read it. I have read other Goldberg books. They were very good. His Yankee voice is a bit hard to take on his hypnosis CD's but the books have great knowledge.
