I love true crime stories. I donâ™t love the tale they tell, but I love the telling of the tale, and Barer and Girardot do not fail to deliver an enthralling look into the mind of a sociopathic killer. Angie, seemingly true only to the classic chameleon traits of her narcissistic/sociopathic personality, is a pretty convincing actress. At least initially. However, she makes mistakes typical of those who think theyâ™re smarter than law enforcement. Spouse on spouse murders are unfortunately not atypical. She still manages to make a cruel, senseless, and heartless crime even more so, due to the depth of her greed and disregard for human life. This is a woman who doesnâ™t murder because she has fallen out of love and grown discontented with, or fearful of, her spouse after years of abuse, for example â“ she is a woman who devises and schemes well in advance. Relationship longevity and falling in love with the victim, who was kind and generous, were never part of her plan. The authors have done a great job providing background information into the life of the killer, as well as parlaying her attempts at deception. Always believing that she is outwitting the detectives, her downfall is that she is not as smart as her grandiosity has convinced her she is, and this results in her snare, which she never saw coming, even though she certainly should have. As a reader, you root for the cops more and more with each revelation of the depths of her depravity, while your disgust for her increases commensurately. Barer and Girardot have delivered a rendering of a psychopathic and heartless murderer, whose evil deviance defies natural universal laws.
