Customer Reviews

The book taught me how to create a seller account in Amazon, how to choose a product, how to choose

suppliers etc. It's always important to have a reliable supplier. This book helps you to find the right suppliers for your business. It explains everything from setting up your seller account to tips on finding the right product to sell. It covers pricing, suppliers and even how to list your product on the website. The most valuable section in my opinion is the section on promoting your product and marketing it. The tips are also essential and very useful, especially for newbies like me. The book tackles the most relevant and important information about FBA that can boost sales. This is the best way to discover the best kept secrets of successful sellers. The book is written to all passionate seekers of making money online for life!

I've got a copy of this book for free and was quite excited as I was very interested in reading it. This is not a lengthy book -- I was able to complete it the same day I received it. However, it is a well-written book and contains a wealth of information. Dan describes the various on-line selling methods in some detail, and his descriptions are spot-on in my opinion. There is just enough detail to help the reader decide which method might work best for their situation, there are details on how to get started with each method, and there are helpful tips for success with each. At the end of each description, there is a "reading list" of other titles that can provide more information for the reader on each particular selling venue. While I would have liked more details regarding each method in the book, I also appreciated the brevity of the book and the thoroughness Dan gave to helping the reader decide which on-line selling venue might work best for them. I'm definitely going to be reading more of his books in the future.

Through my research this has to be one of the best books that I have come across.. particularly as a step by step guide. This book contains everything for a total newbie to start an business. The author writes in a plain and understandable way and it is easy to follow. He provides good advice and it is wise to follow them when starting out. I was blown away by all of the different selling and marketing strategies in this book!

I've been an customer for a bit now and been thinking of how to get into the market of selling in as I see a lot of people selling. One of the things I was interested in was how did fulfill the orders for some of the sellers. Interestingly enough I stumbled upon this book. The book has a good amount of information that answered a few of my questions. Good tips scattered here and there. And a few references about FBA as well. I just need to read up little more and I think I am ready to start getting into selling in .

This book can be a great reference when one wants to learn everything about FBA and all it entails. The book has been so comprehensive in its discussions from the fundamentals until the most complicated part. With the assistance of this book, importing and private labeling one's products will be done easily now. If your starting out in this biz you should definitely give it a read!

If you're selling on this book will definately help you out , it has all the rules and regulation following ideas, the specific code of conduct and alogrithm which the uses, the problems faced by resellers and their solutions

The book is about selling ... um, that's interesting!In it a lot of tips that are sure help to all newcomers on . Although, I think, and in general to all!Thanks to the author for his work, I advise it to all internet-business people!

By the boom of the internet in the world, itâ™s no wonder that people are taking these opportunities to earn money by promoting and selling their products or goods in the internet. This book is really worth all the time reading and purchasing it. After reading this book I understand the benefits of FBA, it really helped me see what a great opportunity it is to sell and make a profit on . You will be able to get a very clear idea about the business on by this book. This book provides all the necessary information to research for profitable products and starting a business in . Very helpful book!!!!
